Submission: 📅 October 01, 2017; **Published:** 📅 April 25, 2018

Introduction

It is one of the most important field not only of Science but also Geology, Geography, Social Science Psychology etc. Burning problem of today is Air pollution, sound pollution, land pollution, light pollution, noise pollution, green house effect, ozone layer depletion, radiation and environment, wild life conservation, Urbanization, space ecology, bioaccumulation, biomagnification, biodegradation etc. It has been endeavoured that the Journal Environment Analysis and Ecological Studies (EAES) can provide good knowledge of all these above areas. An effort has been made to present the matter in a lucid manner.

I take this opportunity of thanking all subscribers, Advertisers, members, contributors, Reviewers, members of Editorial board for the patronage, cooperation and services. They are rendering to the journal. They deserve praise for quality and standard of Journal in the field of Environmental Sciences. We are proud to announce that most of the libraries, Universities, Laboratories, Industries and individual researchers are subscribing to the Journal. We propose to make the journal best in quality and standard for which all cooperation is needed.
