Opinion

I strongly believe that every human being on this earth has the inalienable right to pass through puberty ESPECIALLY those suffering from gender identity crisis. This is because going through puberty can be the decisive factor that rids patients of this crisis. Let us consider the case of the famous female superstar Janet Jackson. Before she was a teenager, according to her equally famous brother Michael Jackson, Janet was a tomboy. She liked doing traditionally boyish things and Michael never feared she would not like whatever activity he was engaged in, unlike his other girlish sister Latoya [1] If Janet had been a pre-teen today, she would probably have been told by the self-important transgender influencers that she was a male trapped in a female's body. She might have been given puberty blockers or might have had her breasts excised. After passing through puberty, Janet Jackson turned from a tomboy to a woman's woman.

She would eventually become one of the most iconic and beautiful female superstars of all time-oozing with female voluptuousness, sensuality and sexuality. As an adult Janet Jackson so embraced her femininity that she utilized a limited image of her luscious and magnificent breasts on her 1993 multiple platinum selling album cover Janet [2] Is it possible for a woman to embrace and exude her femininity more than this? Megastar Janet Jackson also embraced her femininity by getting married to a man and having a son. [3] All these would not have been if she had taken puberty blockers or had undergone gender reassignment surgery. It is therefore my belief that no one should be deprived of that unique experience of puberty by being given puberty blockers.

Between anatomical males and anatomical females there exists a divide so great that current technology has been unable to fully bridge it. A consequence of this divide can be seen in sports viz- [4] (Table 1) apart from the discus event, the men throw further, jump further and higher and run and walk faster. All this is largely a function of the great divide between male and female anatomy. As for the one exception [in discus], it has since come to light that the woman who performed this feat [Martina Hellman] was under the influence of steroids [5] To treat gender dysphoria the mind should be bent to the body and not the body bent to the mind [6].

Table 1: All this is largely a function of the great divide between male and female anatomy.

Olympic Event	Male Record	Female Record
100 meters	9.63	10.61
200 meters	19.3	21.34
400 meters	43.03	48.25
800 meters	0.070497685	1:53:43
1,500 meters	3:28:32	3:53:11

5000 meters	0.540532407	14:26:17
10,000 meters	27:01:17	29:17:45
Marathon	2:06:32	2:23:07
400 meters hurdles	45:94	51:46:00
3,000 meters steeplechase	8:03:28	0.374548611
4X100 meters relay	36:84	40:82
4X400 meters relay	2:55:39	3:15:17
20 Km walk	1:18:46	1:25:16
High Jump	2.39m	2.06m
Long Jump	8.90m	7.40m
Pole Vault	6.03m	5.05m
Triple Jump	18.09m	15.67m
Shot Put	23.30m	22.41m
Discus	69.89m	72.3m
Hammer	84.8m	82.29m
Javelin	90.57m	71.53m
